## CHRISTMAS TRIVIA

- In 2018, 82 percent of Christmas trees in American households were artificial. (According to American Christmas Tree Association).
- Carol Aebersold and her two daughters created "Elf on the Shelf" from years of celebrating with their own elf, Fisbee who reported back to Santa every night before Christmas.
- Gingerbread houses were invented in Germany in the 16th century and rose in popularity with the Brothers Grimm's "Hansel and Gretel" story.
- More than 1.2 billion candy canes are produced and sold every year.
- You may think the shortened version of "Christmas" is a modern creation, it actually harkens back to the mid 1500's and the Greek letter X, which is the first letter in (you guessed it) the Greek work for Christ.
